U. S. Forest Service

Ogden, Utah
1630 (5200)
June 19, 1962

62-TM-50

To : Forest Supervisors and Rangers

From : Joel L. Frykman, Assistant Regional Forester

Subject: Written Information

We are sending you copies of the new Washington Office publication Counter Attack designed for general public information on current forest insect and disease problems in the United States and some methods of control. Also, enclosed for similar distribution are copies of Progress in Forest Insect Control and the Green River Insect Control Project.

The enclosed list shows people to whom we are transmitting copies of both publications with a short mimeographed letter, except for governors and congressmen to whom copies are being sent with brief individual letters. The Chief's Office sent copies to state foresters; U. S. extension services, forest schools; selected public, embassy, and foreign exhange libraries; state agricultural commissioners; and state departments of agriculture. Since Counter Attack is a servicewide publication, we are making no distribution to key people outside the Region. Distribution of our Progress and the Green River Project reports will be given the same distribution, plus being sent to selected people who received our Critical Infestations booklet.

You may wish to send or give copies to selected key people. We have a limited supply here in case you can use a few more.

Enclosure

Joel L Frykman

AGRICULTURE

Foster S. Reese, President
Utah Farmer's Union
580 West 13th South
Salt Lake City, Utah
